

From Nicole Korkolis:

It's my pleasure to announce the introduction of the new OPEIU app, now available for free download for iPhones at the App Store and Android devices at Google Play by searching "OPEIU."

This is an excellent tool for our members to connect with their union, learn about their membership benefits (members no longer need to have hard copies of the towing card or other benefits, as all the information is now on the app), find links to OPEIU's social media networks, and so much more. All local unions are listed on the app, with contact information that includes office address, phone number and website address.
